CONSULTING SERVICES

Karen Bradley provides consultancy services to government, private and community based healthcare organisations, leaders and teams based in Western Australia.

Key areas of expertise include:

1. Development of strategy, planning and policy for transformational change within health care and community based organisations and services.
2. Independent service reviews, assisting organisations to solve challenging problems, improve employee engagement and consumer focused service outcomes.

CONSULTING CAPABILITIES

- Broad experience and depth of understanding of the health care environment at an operational, executive and policy level and across the private/not for profit, government, rural and remote, community and hospital settings.
- Trusted and credible advisor with a strong reputation in the sector for providing sound, evidence based advice at all levels of government and organisations, with extensive professional networks across government, university and private sectors.
- Ability to create and communicate strategy that engages and inspires. Karen has led the development of a number of strategic plans that have helped teams and organisations set direction and achieve positive change.
- Exceptional stakeholder engagement, coaching and facilitation skills, Karen has led a range of stakeholder consultations, workshops, group facilitation processes and leadership development programs and is a certified executive and organisational coach.
- Experienced project manager – delivering project outcomes on time and on budget with attention to meeting the client's scope and deliverables every time with comprehensive skills in service and environmental reviews, analysis of information and report writing.
- Partnering with clients to achieve goals and make an impact.

ABOUT KAREN

With over 30 years' experience across government, private and not for profit health care organisations, Karen brings to her consulting role a robust focus on strategy, governance/risk and organisational culture with a passion for helping leaders deliver with impact in dynamic and complex environments.

Karen's clinical background as a Registered Nurse, contributes to her consulting versatility and motivation for serving consumers and the community with a strong focus on safety, quality, people and improvement.

Karen has substantial executive level operational experience with a number of large health care organisations, is a Fellow and Certified Health Executive with the Australasian College of Health Service Management and experienced non-executive Board Director.

Prior to transitioning to consultancy in 2022, Karen's previously held positions include:

- Lead Health Operations, State Health Incident Coordination Centre, Department of Health WA - a significant leadership role within the WA Department of Health's response to the COVID-19 pandemic, Karen provided direct support to the Chief Health Officer, coordination of health service readiness and COVID-19 Testing.
- Executive Director Clinical Leadership and Reform, Clinical Excellence Division, Department of Health WA - project oversight for the development of Voluntary Assisted Dying Legislation and Palliative Care Services for the WA Government in 2019, oversight for the development of the Urgent Care Centre model of care in partnership with primary care providers, development of an enduring Leadership Strategy for the WA public health system aligned to the Sustainable Health Review.
- Chief Nurse and Midwifery Officer, WA Department of Health – providing clinical leadership, professional advice and strategic workforce development at the state and national level in partnership with a broad stakeholder base.
- Executive Nursing and Midwifery positions with South Metropolitan Health Service, WA Country Health Service and St John of God Health Care Subiaco.
